PROFESSIONAL SUMMARY

Founder's Office operator leading B2B enterprise GTM and sales to CXOs and business leaders across functions (delivery, IT, sales and more). Experienced building product processes, PRDs, and MVPs from scratch, with investor pitching, fundraising, and AI tool implementation for workflow automation.

SKILLS

Sales: Enterprise B2B Sales, Cold Calling, Demos, Pipeline Management

Product & Business: Product Requirement Documents (PRDs), MVP Definition & Scoping, Competitive Analysis, Stakeholder Communication, Pitch Deck Development, Fundraising, Vendor Management, Customer Feedback Analysis, Roadmapping

Growth & Marketing: Content Strategy, Social Media Content, Cold Outreach, Recruitment, User Acquisition

Technical: JavaScript, AI Workflow Automation & Implementation, Proficient with AI Tools (ChatGPT, Claude, Gemini, etc.), Codebase Analysis, Reverse Engineering

Security: DAST, SAST, OWASP Top 10, Burp Suite, OWASP ZAP, Vulnerability Assessment, Malware Analysis

PROFESSIONAL EXPERIENCE

Founder's Office - GTM | Finifi *November 2026 – Present*

- Sell Finifi's operations-AI platform (order-to-cash, procure-to-pay, and reconciliation) to CXOs and business leaders across functions (delivery, IT, sales and more).
- Build pipeline through cold calling and outreach, and convert those calls into product demos.
- Move deals from the demo through to closure.

Founder's Office | Stealth Startup *April 2025 – October 2026*

- Designed and launched the end-to-end consultant onboarding flow from scratch, including structured training sessions with internal trainers, onboarding 40+ consultants.
- Authored 3 Product Requirement Documents (PRDs) and implementation plans for core app flows, defined the MVP (20+ core features) after analyzing 4 competitors, and established the platform's unique selling proposition (USP).
- Created and iterated 3 investor pitch decks and pitched 2 investors directly, contributing to successful close of the round while providing consistent progress updates.
- Sourced, interviewed, and onboarded 20+ consultants via cold outreach, referrals, and direct messaging to support key product and operational initiatives.
- Created social media scripts and content while collaborating with marketing teams and UGC creators.
- Led cross-functional teams in implementing AI-powered workflows to improve efficiency, and partnered with design and development vendors on product delivery.
- Managed end-to-end registration and launch on Google Play Store and Apple App Store, while coordinating compliance and financial setup.
- Incorporated feedback from 10+ users and resolved 50+ complaints, while managing contractors and vendors to deliver projects on schedule.

Cybersecurity Associate | Accenture *August 2024 – March 2025*

- Worked as a cybersecurity associate for a Global 100 client, performing security analysis on production codebases.
- Reverse engineered application codebases to identify and flag potential malware, helping safeguard millions of end users from potential compromise.
- Developed proficiency in JavaScript and applied reverse engineering techniques to analyze and assess third-party and internal code for security risks.

Cybersecurity Associate Trainee | Accenture *March 2024 – June 2024*

- Trained in Integrated Application Security Services (IASS) with a focus on Application Security, gaining hands-on exposure to enterprise security practices.
- Learned and applied Dynamic Application Security Testing (DAST) to identify how malicious actors exploit vulnerabilities and how to mitigate resulting threats.
- Practiced Static Application Security Testing (SAST) to detect security flaws directly in source code.
- Explored the OWASP Top 10 vulnerabilities and applied industry best practices to strengthen application security.
- Used Burp Suite and OWASP ZAP for web application vulnerability scanning, security testing, and manual penetration testing.

EDUCATION

Bachelor of Technology in IT | 2020 – 2024

Shri Ramdeobaba College of Engineering & Management, Nagpur
